

AIR EXCHANGERS AND EXTRACTORS

Air exchangers and extractors exhaust stale air and replace it with fresh air. Proper ventilation keeps condensation away from windows, increases the life of the building, and above all improves air quality. Air is vital – improving its quality will improve your health.

7100

Standard Air Exchanger

- Constant air flow
- Fresh air exchange
- Built-in air temperature sensor
- Humidity control
- Compact size

The Aeromatic 7100 model improves home comfort through a continuous air flow that ensures a fresh air supply and constant temperature.

7110/7190

Economical Air Exchanger

- Intermittent air circulation
- Humidity control

The 7110 model is affordable, and improves ambient air quality at a low cost.

The 7190 is designed with inlet and outlet located on top of the device.

7150

Compact Air Exchanger

- Small case and ducts
- Constant air flow
- Humidity control

The Aeromatic 7150 model is compact, cost-effective, energy-efficient, and ideal for condominiums. It may also be used as a supplement to the heating system.

7000

Air Extractor

- Expelling of stale air
- Humidity control
- Evacuation of odors and pollutants

The Aeromatic 7000 model ensures efficient ventilation year-round. This silent model is cost-effective, energy-efficient and can be easily installed in the basement, on the ground floor or in the attic.

Technical Specifications

		7100	7110/7190	7150	7000
Air flow		110 CFM	110 CFM	30 to 85 CFM	160 CFM
